

Sweet Land of Liberty.

Liberty court without a murder case on the docket is very much out of the ordinary, but such was the case this time, to her credit be it said. But when you come to think of it, it is rather unusual for the docket of any county in this land of the "dark and bloody ground" to be clear of such a case and Casey county has done no more toward giving Kentucky the unenviable name she has than the counties that surround her. The docket is a light one throughout and the business of this term will likely be finished this week. There are few visiting attorneys present and small crowds attend. Three courts a year seems to be too much of a good thing and people do not go in days of yore.

Liberty has made both losses and gains since I was there. The Napier House, heretofore known as the democratic hotel, has closed doors. Business got too dull and clever Charley Prescott decided to give the Exchange Hotel a monopoly. The improvements have been the completion of the handsome brick jail and residence, a new store-house built by Mr. G. R. Cowden and several residences. The jail residence is a beauty indeed and discounts the one at Stanford. It is very modern in appearance and is a marvel of convenience.

Newspaper men were pretty thick Monday. Mr. A. R. Hyche, of the London Echo, was there in the interest of his paper. Mr. Phelps and son, of Linton Phelps, worked for the Southern Kentucky Tribune and your humble servant did what he could for the "cheapest and best." Business wasn't rushing, but then newspaper men are used to hard times and a dull day or so don't bother them.

The Southern Kentucky Tribune is the name of a paper that Messrs. Phelps, referred to above, will begin the publication at Liberty in a few weeks. It will be a weekly, and the editors say it will be non-political. Both of the gentlemen are rank-and-file republicans, however, and its dollars to doughnuts that the paper will have a republican ring before many of its issues are read.

Liberty's bank is progressing finely and her officers and directors are sanguine of success. Only \$14,075 of its \$20,000 capital stock has been paid in and the loans already amount to \$25,000, while the deposits reach \$30,000, or more. Cashier Frewitt thinks they will make sufficient money by Jan. 1st to pay expenses of organizing, rent, salaries of officers, and carry some to a surplus fund. A few shares of the stock sold the other day at \$102.

Col. Silas Adams did not return to Washington to look after his race for door-keeper of the House. He was satisfied that it would require a hard fight to win it and he did not care to make it. He will devote his entire time to the practice of law and may never again take a hand in politics. Col. Adams enjoys the quietude of Liberty far more than he does political preferment.

Mr. William Cloyd, one of Casey's heretofore most substantial citizens, made an assignment this week to J. M. Hicks, his father-in-law. His assets consist of a 450-acre farm, well stocked and his liabilities amount to about \$7,000.

Liberty is already dawning a gay garb for Christmas. The democrats had very little to be thankful for Thanksgiving and that day passed by unobserved, but it will not be so with the holidays as the show windows bear evidence.

Mr. E. Tarrant's school closes next week and he will resume his good Liberty letters. The Interior Journal intends to give to Casey county readers as much news from that county as any paper, it matters not where it is published. Now is the time to subscribe.

The present cold spell has been fine for hog killing and spare ribs, backbone, sausage and the like have been plentiful. The people in the "State of Casey" believe in attending to the wants of the inner man at all times and especially at this time of the year it is a good time to be with them.

The many friends of Dr. O. H. McRoberts who have always admired his democracy will be sorry to learn that he has gone over to the enemy. The doctor married into a republican family though and probably thought that he should agree with his wife on all questions.

The reply of the Marquis of Salisbury to the note of Secretary Olney on the Venezuelan question is that Great Britain refuses to submit to arbitration its claims on any of the territory within the Schomburgk line and there is prospect of some war talk.

There are 750,000,000 pennies in circulation in this country, and the public is absorbing them at a rate of 150,000 a day, which represents a daily profit to the government of \$1,200. The little coin is becoming an important American institution.

The exchange business is still being conducted at the post office every Saturday afternoon by the Ladies' Aid Society of the Christian church. They have been unable to realize some money by this enterprise.

If the Madon is not "talking through her hat" again we will very likely have a wedding on the Danville street next week. As we do not know the name of the groom we will wait for further developments.

There was another wreck on the L. & N. railroad near the section house Tuesday. Very little damage was done and no one injured. This makes the second wreck to occur on this road within a week.

Mr. Newton Broadbina, of McCreary, who recently bought out the livery stable of J. Rice Beuge, has rented the Seemey house on Lexington street occupied by H. M. Ballou and family, and will move his family into it. Mr. Ballou and wife will board with Mrs. James A. Rayson.

Mrs. T. M. Goodnight, of Frankfort, is in our midst endeavoring to secure a class in physical culture and elocution. Mrs. Goodnight comes highly recommended as a teacher, having taken a course in elocution at Boston. She will teach the Emerson method if she is so fortunate as to secure a class.

Kinnaird and family. Miss Bertha Burdette has returned from a pleasant visit to her cousin, Miss Allie Walker, of Kirksville. Lexia Landrum visited her sister, Mrs. W. G. Dunlap, at Lexington Tuesday. Mrs. A. G. Scott, Mrs. B. Farris and little son, Mrs. Mary Engelman, Eph and family, Mrs. S. E. Owsley and Mr. Wm. Blackberry all left Tuesday for Phoenix, Arizona, to make their home. R. E. Hughes is the guest of W. S. Miller and family, of Knoxville.

CHURCH AFFAIRS.

Rev. E. W. Ricker, of the Free Baptist church, of Lebanon Falls, Me., has conducted just 500 funerals. He has in a notebook the age, place and name of every one of the 500.

The Frankfort Capital says that Rev. George Darsie gave some interesting figures and facts in his 18th anniversary sermon, preached Sunday morning to his congregation at the Christian church. Said he: The church for which I preach was organized 63 years ago with seven charter members. It has received during its entire history, 1,381 members. During the entire 18 years of my stay there have been 861 persons added to it, about half of them by confession and baptism. We have at present a membership of a little over 600. We have raised during the year, for all purposes, \$4,841.53. We have given to the cause of home and foreign missions \$1,694.11. Our Sunday school has raised \$267.54. It has had an average attendance of 167 pupils.

The Christmas tree will be the event of the season with the young people here.

Mrs. Fobe Lair, of Livingston, will return to her home this week from the Joseph Price Hospital, where she has been much benefited during her stay of several weeks.

We learn that Mr. Brinkley, while in Louisville, fell down the steps and broke his arm. His many friends here regret to learn of his misfortune. Mr. F. E. Thompson is in charge of his store here.

Our neighboring village of Livingston expects a matrimonial boom during the holidays. We will not divulge any names, but a large and roomy mansion near the river will receive some of the brides, we are told.

There is a great deal of sickness among the people here at present. Among those who are ill are Mrs. M. C. Miller, Mrs. Henry Gentry, Mr. Hamal and Mr. Jas. Tyner. The little daughter of Mr. Noah Tyner, who was eight, has about recovered.

Mrs. Helen Rueland spent Thanksgiving in Richmond with her sister, Mrs. Lapsley McKee. Dr. J. M. Williams is spending a few days with the homefolk before starting to Europe. Mrs. John Fish is visiting in Williamsburg.

After less than a week's illness, Sherman Colyer, eldest son of Judge P. D. Colyer, succumbed to that dread disease, pneumonia. His loss will not only be felt in the once happy home circle, where he was such a beloved member, but in society, among his old schoolmates and in the school-room, where he had so faithfully attended to his duties as teacher during the past five months. In only two weeks he would have finished his duties there and have bidden his pupils a kind farewell, but death, loving a shining mark, had chosen our talented young friend for his victim, and Tuesday morning he bade a long farewell to all earthly ties to join the heavenly choir. Many friends attended the funeral services and extended words of condolence to the sorrowing father and mother.

The foot ball game between Centre College and the L. A. C. set for next Saturday has been declared off. There was serious objection upon the part of the college officials, and also upon the part of the parents of some of the students, to continue the season after Thanksgiving.

On Monday, 25 or 30 old Confederate soldiers met, at the court-house, for the purpose of taking the initiative steps for the establishment of a home, in Harrodsburg, for all the helpless ex-Confederates of Kentucky. A committee was appointed to solicit subscriptions and report at January court.—Sayings.

JOHN SAUNDERS MURPHY.

The days of our years are three-score years and ten; and if by reason of strength they be four-score years, yet is their strength labor and sorrow, for it is soon cut off, and we fly away. Ps. 90:10.

Though his life has been successful pecuniarily and otherwise apparently, yet Squire Murphy, whose picture appears above says there is no truer words in Scripture than the ones quoted, that life at its very best life is a failure and in its decline not worth living. Born in Wayne county, Sept. 6, 1814, of parents who came from Bedford county, Va., he went into the farming business as soon as he was old enough and in 1830 came to this county. Martin A. Stennous had a tanyard on the St. Asaph just beyond the bridge on the Somerset pike and he hired him, making by working every day and every other night \$24 a month. Afterwards he went in partnership in the same business with Henry Myers, putting his experience against \$13,000 capital. In 13 years he had made \$40,000 and paid out \$28,000 to the heirs of his partner.

In 1856, he married Miss Paulina Myers, who bore him nine children, five of whom are living, Mrs. Robert Rice, Mrs. A. D. Root, Mrs. T. M. Goodnight and W. H. and J. S. Murphy, Jr. His wife died in 1865 and in 1867 he married Mrs. Mary J. Johnson. In 1862 he began the banking business here and was the first president of such institution here, the Central Deposit. This afterwards became a National bank and for the two he was president for 28 years. He managed the business almost exclusively himself and banked more on a man's honesty than his property. He was a fine judge of character and rarely made a bad debt. He amassed a good fortune, which he has divided to a great extent among his children, retaining enough to keep him in comfort. He also had several farms and made considerable money farming.

Before the adoption of the constitution that went into effect in the early '50s, Squire Murphy was appointed a magistrate, holding for six years and then being elected two terms. This is the only office he ever held, though often importuned to stand for them. "I have been a great man in my life for attending to other people's business," said the squire in a conversation yesterday, unconscious of the double-entendre he was perpetrating. No one who knows him however will take it in the offensive sense. He meant that he had been guardian, executor, administrator, etc., for more people than anybody and so he has. The records of several county courts show that and they also show that never a cent of all the money that he handled for other people ever stuck to his fingers illegally.

For 57 years he has been a faithful soldier of the cross, having joined the Christian church in 1838. He has been a member of the congregation here for over half a century and has served the church in every capacity and to its great satisfaction. He has always done with earnestness and enthusiasm everything that his hand found to do and in every walk of life has filled the full measure of an honorable existence.

When asked if he believed in the efficacy of the prayers of the Cleveland Endeavorers Bob Ingersoll said: "Oh, we will have to wait and see what will be done. I suppose that God is busy yet with people's prayers of Thanksgiving of last year, and has not got around to that yet. We will have to wait and see what will be done. If these prayers are effective then the Endeavorers ought to go after Grover Cleveland. His message reads like he needs it."

This is published for the consideration of the young ladies of the Presbyterian church, who will give a birthday party on the 20th: "We mean to try a penny social at the church next time," said Mrs. Watts. "And what's that?" asked Mr. Watts. "Every woman gives a penny for every year of her age."

"Better make it a penny for every year she is under 70. Then the contributions will be long instead of short."—Indianapolis Journal.

W. P. WALTON.

The president's message, which was read in Congress Tuesday, is so very long that hardly one in 50 of our readers would wade through it if we were to print, so we will condense it for the benefit of those who want to know what is in it without reading through its 15,265 words. As usual the message is characterized by a strong sense of responsibility and earnest patriotism, which will make Mr. Cleveland's state papers as notable in history as they are strikingly well-timed to the National needs and demands of the day.

After calling attention to the reports of the heads of departments, he omits further reference to them except as they are related to the main topics discussed—the finances and our foreign relations. The latter subject is discussed at great length. The Venezuela boundary matter is given prominence and the statement made that in July last the British government was informed that this country was bound to protest against the enlargement of the area of British Guiana in derogation of the rights and against the will of Venezuela. In other words the Monroe doctrine would be strictly enforced against any country increasing its possessions in North America. The insurrection in Hawaii and the fact that its minister here at his request had been recalled are the only references to that country. Sympathy is expressed for Cuba, but she is not yet in the attitude that would justify the U. S. in recognizing her as a belligerent, our international duties preventing it. The assurance is made that our missionaries shall be protected at any cost and that this country has demanded that a special American commission shall investigate the whole matter of massacres involving our citizens.

The president takes a firm stand on the currency question. He treats the subject exhaustively and suggests as a remedy for present troubles the retirement and cancellation of the greenbacks and treasury notes, and the increase of the circulation of the National banks, proposing to substitute long-time, low interest bonds for paper money and making them a basis of circulation for the banks, conferring authority to issue notes to the full amount of the par value of the bonds deposited to secure it. When this is done he says the silver bullion in the treasury might be coined, thus adding to our silver coin about \$175,000,000. He would also empower National banks with authority to establish branches. His assertion that no bonds have been sold to supply deficits in the revenue, and that the only occasion for the sale of bonds was to replenish the gold reserve, maintain the public faith and continue specie payments, is in direct conflict with the statement of leading republican politicians, but it is true nevertheless. The issue of \$102,000,000 of bonds was occasioned by the withdrawal of gold for foreign shipment, speculation and hoarding because of unwise legislation in the past and the gold reserve is no better off now than when the raid was first started and the first issue of bonds was made. Since 1879, when the treasury resumed specie payments, over \$105,000,000 gold has been withdrawn from the treasury by means of legal tender notes, and of that vast sum over \$375,000,000 was withdrawn after the passage of the Sherman silver law. The president shows beyond cavil that the parity between gold and silver at 16 to 1, can not be maintained alone by this country and cites our own experience as proof that it can not. The message closes with the assurance to Congress that while the remedies that he suggests are prompted by his best judgment, he is not bound to them but is prepared to co-operate with the law-makers in perfecting any other measure promising thorough and practical relief, adding "I will gladly labor with them in every patriotic endeavor to further the interests and guard the welfare of our country, whom in our respective places of duty we have undertaken to serve."

The entire message shows the impressive patriotism and the desire for the greatest good to the greatest number. There is no appeal to party or to partisanship, no effort to present striking phrases, no jingoism and no play for a third term. Boiled down to the fewest number of words the message stands for peace with honor, sound money and the maintenance of every public obligation.

As Gov. Bradley is not yet omnipresent, though more so than any living man, he can not fill the two important engagements fixed for Dec. 10. His inaugural as governor and the meeting of the National committee occur on the same day, the one in Frankfort, the other in New York, so he will send his man Friday, that is to say Walter Forrester, to represent him at the latter.

The Courier Journal Job Printing Co. was knocked out of the public printing this time, after fattening off for years. Gus Straus seems to have lost his pull or was too greedy. The printing fund commissioners have awarded the printing of the first-class to the George G. Fetter Printing Co. and the second-class to the Bradley-Gilbert Co.

When the writer was a boy he thought that a Congressman was one of the greatest of human beings and worthy of homage and adulation. This idea gradually wore off as we got more experience till now we rather look down upon them. The crop of short horses sent to make our National laws grows shorter every year, till now they do not rise in mental calibre beyond the average State legislator. The present Congress is almost a parody on the Congresses of the long ago. There are very few men of note in it and we could name scores who would better adorn a corn field than a seat in the Congress of the United States.

SENATOR HILL, of New York, is dearer than Senator Blackburn; at least his demise is more noticed since he reached higher. Beaten twice in his own State in succession, he sought to replenish a depleted purse by lecturing on "Liberty," but the people would have none of it. There was no enthusiasm over him anywhere, his lecture fell flat and worst of all the door receipts were ridiculously small. Under the circumstances, there was nothing left for the Senator but to take cold and quit. Sic transit gloria mundi.

The president has nominated Rufus W. Peckham, of New York, to be associate justice of the United States supreme court, to succeed the late Howell E. Jackson. He is a resident of Albany, and judge of the court of appeals of New York. His name has been mentioned frequently for the office to which he was nominated Tuesday. It is believed his nomination will be satisfactory to Senator Hill, whose opposition was successful in preventing the confirmation of Messrs. Hornblower and Wheeler Peckham.

The committee at Frankfort has extended a general invitation to the inaugural ceremonies next Tuesday and as the railroads offer a rate of one fare for the round trip, a great many people, especially republican people, will go. The inaugural ball that night promises to eclipse anything previously attempted in the city under the hill, which will do everything in its power to welcome the coming and speed the parting guests.

THOMAS BRACKETT REED has great cause for self congratulation. After four years of retirement there from, he is again elevated to the speakership of the House by a unanimous vote of his party and apparently the approbation of the country, judging by the election returns. No man was ever more thoroughly endorsed than he, despotic rulings, extravagant appropriations and all.

There is a post-office in Letcher county named "Democrat," which judging from the election returns, is the only thing in the county animate or inanimate that has such a name. In view of all that has happened and is about to happen, we move that the name of the office be changed to Bradley and may God have mercy on it.

The editor of the Georgetown Times, who ought to know how it is himself, gets after us for leaving a syllable out of a word. Did Bro. Bell ever have to wrestle with an intelligent compositor, or have an intelligent compositor wrestle with his copy? No? Then he can't sympathize with us.

The Lexington Leader, with its usual progressiveness, printed the president's message the day of its delivery to Congress, but it had space for precious little else after it was set up. It was the best reading that its patrons have had for a long time, so they readily excused the paucity of other items.

The Louisville Times printed the picture of a pretty girl Tuesday and put her name so that she would have to stand on her head to read it. This is taking undue advantage of youth and innocence and deserves to be rebuked by all who object to seeing a lady turned upside down.

—The negro candidate for chaplain of Mr. Reed's 54th Congress got just two votes in the republican caucus.

—The Mississippi at Burlington, Iowa, is frozen so solid that the farmers are hauling produce in heavy wagons over it.

—Kentucky's republican Congressmen, except Mr. Pugh, will come marching home to see a republican governor inaugurated.

—The New York Central railroad has demonstrated under most adverse circumstances that it can run the fastest train in the world, 53 1/3 miles an hour for 140 consecutive miles.

—F. Howard and J. Maloney, two young men of Green Bay, Wis., have started to roll two beer kegs from Green Bay to St. Louis on a wager. They ought to be put to breaking rock.

—With Gen. Walker, of Virginia, at the head of the election committee, and Mr. Colson, of Kentucky, one of its members, there will not be much chance for Owens and Kendall, or any other Southern democrat.—Washington Dispatch.

—A Constantinople dispatch to the London Telegraph says the Powers have presented an ultimatum to the Porte, threatening to force the passage of the Dardanelles unless firmans are issued within 72 hours permitting the extra guard ships.

—If the republicans carry as many States in 1896 as they carried in 1894 and 1895, they will have a large majority in the Senate in proportion to numbers as they now have in the House of Representatives. On the 4th of March, 1896, there would only be 20 democrats in the Senate out of 90 and it would take the democrats eight years of successive triumph to again regain the ascendancy. This is a beautiful prospect for an old democrat to contemplate.

MATRIMONIAL MATTERS.

—Mr. Johnson Allen, of Danville, and Miss Marie Tunnis, of California, who is visiting there, will marry on the 11th.

—Mrs. Sarah Lewis, a widow, 45 years old, worth \$35,000, has eloped from Raleigh, W. Va., with Charles Jones, aged 17 years.

—Dr. J. P. Flannagan, of Boyle, old enough to know better for he is 74, eloped to Jeffersonville with Miss Sallie Same 23, and married her.

A WASHINGTON dispatch says of the member from the Bloody 11th: Representative Colson is the youngest-looking member of the delegation. Just at present he feels his importance, but this always wears away when a new Congressman finds he is not a necessity. He is bright and looks capable of doing good committee work.

FARM AND TRADE ITEMS.

—Mrs. Ed Wilkerson sold to Dr. Steele Bailey a jersey cow for \$55.

—The King farm on the Hanging Fork was bought by the heirs at \$46 75. There are 180 acres.

—George F. Wood sold 15 feeders, 1-200 average, at Paris at \$3.44, and another lot sold there at \$3.23.

—The Harrodsburg Sayings tells of several sales of hogs at 3 1/2, corn at \$1.25 and 75 head 1,700 pound cattle at 4c.

—The Winchester Democrat reports the sales of 73 hogs at 3.20 to be weighed after being driven 14 miles and 26 head of 1,516 pound cattle at 4c.

—For Sale.—Thirty tons of nice timothy hay and a fine Jersey cow with half calf. R. H. Crow, Shelby City.

—Lost.—Two year old red steer, marked in left ear with crop and split. Also a yearling heifer with white face. Reasonable reward. G. M. Brown, Liberty.

—At Woodard & Shanklin's sale of thorough-bred yearlings at Lexington Tuesday 116 head averaged \$267, which shows that this class of stock is advancing.

—The commercial apple crop of this country has been estimated for the present year at 66,000,000 barrels. This is one of the largest crops in the history of the country.

—James B. Parks sold 100 export cattle to Weihs last week. They were the best in the county and weighed between 1,600 and 1,700. Price paid was 4.35.—Richmond Pantagraph.

—The Danville Advocate says that Simon Weihs and Monte Fox, agents, bought 634 export cattle last week at 4 cts. The lots included 242 of J. C. Caldwell, W. H. Murphy 18 and J. P. Riffe 17.

—At the sale of the lands of D. B. Staggs here next Monday, 9th, I will sell a pair of work mules, two horses, 35 shares turnpike stock and the Lincoln Co. right to sell the Lane fence. S. P. Staggs, Admr.

—Coyle, Kennedy & Co. have dressed and shipped to Boston 10,000 turkeys this season, the gross weight of which was 90,000 pounds. The average weight of the turkeys has been 11 pounds, and the price 5 1/2 cents, or a total of \$6,000.—Richmond Climax.

—At the public sale of Jersey cattle held in Louisville by Kentucky breeders, 19 cows averaged \$95.00. The highest price—\$237.00—was paid by J. E. Robbins for Jubilee Ethel 99607. Twenty-eight heifers averaged \$46.40, and eight bulls averaged \$30.

—T. P. Embury got in Saturday from Atlanta and other points in Georgia. He reports a little better feeling in Southern stock markets and is encouraged over the outlook. He sold two carloads of cotton mules for an average of \$82 per head, selling them to a wholesaler.—Advocate.

—The Richmond Climax says that Monday was an unusually good court day for business, many merchants taking in \$400 to \$500. The 300 cattle offered sold briskly at 2 to 3 1/2. Carithers & Heard bought a car load of mules at \$25 to \$100, another firm gave at the rate of \$65 a head for another car and a pair of aged mules sold for \$330.

—Cleveland's message is a winning platform for the democrats to make next year's fight on. It is more than that—it is a declaration of principle to which every patriotic American can subscribe.—Louisville Post.

Mrs. Nellie Carpenter, who was indicted by the last grand jury for keeping a bawdy house at Crab Orchard, was placed in jail Wednesday evening by Deputy O. P. Newland. She will be tried to-day.

PAID.—Mr. C. D. Thompson, the clever adjuster for the London, Liverpool & Globe, was here yesterday and paid Mr. B. P. Martin \$880 in full for the loss of his house at Rowland. The settlement was perfectly satisfactory as all Mr. Thompson's adjustments are.

A DISPATCH to the Courier-Journal says that "47 men have been indicted by the Leslie county grand jury for white-capping. Three have been removed to Stanford for safe keeping and the others have been released on bond." This must mean Stanton. No prisoners have been brought here from that county.

THE Cincinnati Southern is doing a rushing business. Tuesday there were seven sections of a passenger train, all with double-headers and one train having 14 Pullman coaches. They were carrying Ohio to the Atlanta exposition, but the travel is nearly that heavy every day either to the exposition or to Florida resorts.

THE Advocate boasts that Danville has to furnish "Stanford, Somerset, Lancaster and other small towns" with the weather, the predictions being sent there and mailed to them. This was the arrangement, but we have slightly broken into it, with the probability that the tables will be turned and that Danville will get her weather from Stanford.

In the case of Mrs. Lewis Dishon vs. F. F. Bobbitt, tried before the county judge and a jury at Crab Orchard Wednesday, Mrs. Dishon got judgment for \$14 against the lawyer, the value of a cow he sold for her husband's debt. The plaintiff was represented by Hon. W. H. Miller and the defendant by Judge W. E. Varmon and it was a legal battle royal.

TO OUR PATRONS.—We ask every person who knows himself indebted to us to send the amount to this office at once. The weather is too bad to go to you for it in person, so please call in and pay or mail us the amount. How many of those who read this notice will show their appreciation of our indulgence by responding promptly to our call?

HAS HE GONE FOR GOOD?—Some time ago, Wm. Chesterfield, manager of the McKinney Canning Co. and a native of Ohio, gave a crooked check and got the money. On being confronted with the charge, he said he would go to Stanford and fix it up. He went, but whether it is not known to this day. As he left a sufficiency of property to pay the check and other debts no one has put himself to the trouble of ascertaining his whereabouts and he is now probably grazing in greener fields.

WINTER came in like a roaring lion and has continued to roar. A number of snows have fallen since Monday and at this writing a whirling sheet two or three inches deep envelops the earth. A searching cold wind blew until yesterday, when there was a considerable let up in the frigidty, though at sun rise the mercury marked 15°. Since the signal service checked up so unceremoniously in its messages to this office, we are not permitted to tell what a day may bring forth, but it looks very much like the worst is over for the present.

The Difference.

Tennyson could take a worthless sheet of paper, write a poem on it and make it worth \$65,000. THAT'S GENIUS.

Vanderbilt can write a few words on a piece of paper and make it worth \$5,000,000. THAT'S CAPITAL.

The United States can take an ounce and a quarter of gold and stamp on it an "Eagle Bird" and make it worth \$20. That's Money.

A mechanic can take material worth \$5 and make it into watch springs worth \$1,000. THAT'S SKILL.

A laborer works 10 hours a day for \$3 a day. THAT'S Labor.

When we tell you we carry the largest and best selected stock of Dry Goods, Carpets and Shoes in this section. THAT'S A REALITY.

When we tell you we do sell goods for less money than any house in Stanford, and that our economical cash plan enables us to do it. THAT'S REASONABLE.

SEVERANCE & SON.
